BUDOSS TANZANIA MINERALS Limited

Minerals for the development of Tanzania

Extraction and development of mineral resources and other sectors require excellent transportation from the extraction/development sources to recipients (markets) both domestically and internationally.
Rail transport is the most efficient method. It is a reason behind our many years efforts towards investing and developing rail transport in Tanzania.

South Railway in Tanzania

To develop south part of Tanzania and reduce the cost of minerals' transport to Mtwara port

BUDOSS TANZANIA MINERALS Limited actively support the project of SGR railway in south Tanzania (1005 km)
